

### About CompTIA

CompTIA is the voice of the world's information technology (IT) industry. As a non-profit trade association advancing the global interests of IT professionals and companies, we focus our programs on four main areas: education, certification, advocacy and philanthropy.

### Kelley Imaging Systems

Kelley is the premier provider of office technology products, mailing equipment and software solutions, and IT solutions in the Pacific Northwest. We provide our customers with the personal and exemplary service of a local company and the resources and technological innovation of a large national organization.

### What is the Managed Print Trustmark?

The CompTIA Managed Print Trustmark identifies organizations that provide best-practice based managed print services leveraging remote monitoring technology and on-premise print services.

This credential goes only to businesses that demonstrate superior competency and dedication to quality service delivery. Companies displaying the Managed Print Trustmark logo have made a pledge to follow best practices that meet or exceed industry service standards.

The CompTIA Managed Print Trustmark was developed through an initiative of the CompTIA Managed Print Services Community. Members of this collaborative group (MPS program providers, manufacturers, distributors, software providers, service providers, independent resellers, consultants) constructed and validated the credential.

### Why Contract with a Trustmark Holder?

Organizations that carry the CompTIA Managed Print Trustmark have demonstrated a high level of competency and adhere to prescribed best practices which benefit their clients in 5 key areas: Cost, Security, Efficiency, Environmental Impact, and Compliance. To obtain this esteemed credential, our organization committed to an industry "Code of Conduct," and underwent an assessment provided by a vendor-neutral industry association, which assures that we adhere to the highest business standards in all of our day-to-day activities.

The CompTIA Managed Print Services Trustmark offers our clients peace of mind—knowing that we employ industry best practices and tools to keep your printing fleet up and running. It also confirms our commitment to quality, assuring our customers that we have what it takes to help them succeed.
